

Dear parent or guardian

We just wanted to share a few notices with you for the Spring term following parent’s evening. It was great to have a chat with you all!

Spelling

We would like to thank you for supporting your child’s spellings using the sheet we gave out earlier in the term. If you require another sheet to support your child, please ask your child’s teacher. The SAT spelling test will likely include some of these words.

Isle of Wight residential

The first parent’s meeting for the Isle of Wight residential will take place **at 7.00pm on Monday 13th March** in the old hall. We will run through the itinerary of the trip and give you more information on what the children will be doing. There will be a second meeting nearer to the date of the trip. We request that parents attend the meeting without children.

SATs and revision

During parent’s evening, many Y6 parents asked how they could support their children’s revision for SATs. The following books are great for giving children practise in reading, SPAG and Numeracy tests. The “Achieve 100” range is the expected level, and the “Achieve 100+” range has a higher level of questions. *Please ask us if you are not sure which level book is right for your child.* These are available from sellers such as Amazon.

<p>Achieve 100 Maths Practice Questions (Achieve 100 Practice Questions)</p> 	<p>Achieve 100 Grammar, Punctuation & Spelling Practice Questions (Achieve 100 Practice Questions)</p> 	<p>Achieve 100 Reading Practice Questions (Achieve 100 Practice Questions)</p> 
<p>Achieve 100+ Maths Practice Questions (Achieve 100 PLUS Practice Questions)</p> 	<p>Achieve 100+ Grammar, Punctuation & Spelling Practice Questions (Achieve 100 PLUS Practice Questions)</p> 	<p>Achieve 100+ Reading Practice Questions (Achieve 100 PLUS Practice Questions)</p> 

Also on the Y5/6 section of the school website is a useful glossary of the terms that will be used in the Y6 SPAG test. Additional revision homework may also be sent out to children in the run up to SATs.

Superhero Maths

Your child may have told you about the Superhero Maths challenge we have been doing in Y6. Each week they must “defeat” a superhero by completing a set number of times tables questions within a set time (normally about 3m50s). Attached is a list of the superheroes and which times tables facts children need to know to “defeat” them!

We hope you found the information above useful.

The Year 5/6 Team

Maths Superhero!

WONDER
WOMAN
IRONMAN

Fractions, decimals and
percentages of quantities
2 digits X 1 digit

CATWOMAN

All with place value- THU
and tenths (By the end of
year 5)
