

KS1 Trip to the Allotments

On Monday 22nd May the whole of KS1 went on a trip to the allotments as part of our plant topic.

The children loved looking at the variety of plants on their way to the allotments.

How many plants can you name?

Which plants can we eat? We found lots growing in the allotments.

Look closely at the leaves to help label the plants.

It was a very good walk to the allotments. Great exercise for children and adults!
