

Reception Home Learning Spring 2 – Week 1

	Topic Arctic and Antarctic (penguins, polar bears, landscapes, ice experiments)	Literacy (penguin facts)	Maths (subtraction)	Phonics. Consolidating phase 3 sounds for recognition. Applying the phase 2 and 3 sounds – independent writing	Additional
Monday	Using an ice cream tub or similar fill it three quarter full with water, place some items into the water, some that float and some that sink. I.e: coin, stick, paper clip, pebble etc. Discuss that water is a liquid and that some items float and some sink, get the children to predict which will float and sink. Now place in the freezer until Friday. Then do another one with just water no objects ready for Wednesday.	Read the book the Runaway Ice Berg (emailed resource). Sequence the story (printable resource)	Watch the oak academy lesson for Monday. Then practically practise subtraction using objects, you may want to extend to 20. To make it more tricky change the wording: I had 7 grapes and Bill took some, I then had 4 left how many did Bill have?	This is a really important term to consolidate the recognition and application of the phase 2 and phase 3 sounds. Therefore, no new sounds will be introduced but we want the children to start writing the sounds independently and within words and sentences. Use the materials from last term to support your child's learning. I have also attached some optional extra's for phonics for the whole term – these are optional and do not have to be used. Just be imaginative and encourage your child to write as much as possible independently. Try hard not to spell words out for them, but just segment the word so that they can write it.	Subtraction home learning ideas with vocab Funky fingers – (link below) Yoga – (link below) PE – penguin style – (link below)
Tuesday	Watch Go Jetters – Polar Explorers. Create a penguin using a cardboard tube. 	Label a penguin (printable resource)	Watch the oak academy lesson for Tuesday. Now practise counting from 20 to 0. Then using the ten frame, practise practically subtracting, encouraging your child to say the full sentence like shown in the video.		How to draw a penguin (printable resource)

Reception Home Learning Spring 2 – Week 1

Wednesday	Watch Go Jetters – Arctic Ocean. Science experiment – (printable sheet)	Watch the life cycle of a penguin powerpoint. Write a sentence about the life cycle	Watch the oak academy lesson for Wednesday. Complete the subtraction sheet (printable resource)		Subtraction cards (printable resource) Mrs Brown's Art from the zoom session Create an artic scene by either painting, printing, collage etc
Thursday	PE – follow the link below. PSHEE /Thrive –Read the ebook (emailed resource)– We are all different. Draw yourself and one of your friends, say what is different about you both.	Independent write - Polar regions writing (printable resource)	Subtraction, either continue doing it practically and encourage your child to say the full sentence or complete the worksheet by crossing off the objects to count backwards. (printable sheet)		Rainbow breath – mindfulness – link below
Friday	Using the ice that you made on Monday, take the ice block out and place on a tray. Encourage your child to discuss the feeling of the ice, encourage them to describe it using words other than cold. Add a drop of food colouring and watch it spread, add a bit of salt and watch what happens. With adult support pour some hot water on and watch. Afterwards allow the children to investigate the	RE – 'The sower and the seeds'. Read the powerpoint and then write about the four pictures	Counting – practise counting to 20 and back down, if this is too easy practise counting in 2s to 20, 5s to 50 and 10s to 100.	Record your child reading a book and upload to tapestry.	Music – oak academy (link below)
