

24.2.21 WALT notice that animals, including humans, have offspring which grow into adults

### Retrieval practise

Match these animals to the correct group name

mammals

reptiles

birds

amphibians

fish

True or False? Put a tick or cross. If you don't know leave it, no guessing!

	✓ or ✗
When animals are born, grow, get older and have babies, this is called a lifecycle	
A tadpole becomes a butterfly	
Most adult animals have babies of their own	
All baby amphibians are called tadpoles	
A caterpillar turns into a butterfly
